

What makes Local Church unique is how we think about people, church, local communities, etc.

### **Kids**

We provide safe environments for kids to fall in love with Jesus and the church; it's not childcare.

### **Students**

We meet every student where they're at and create spaces to help them move closer to Jesus.

### **Adults**

Through preaching, Bible studies, and discipleship, we help adults take unique next steps that cause them to trust Jesus more in their actions and words.

### **Worship**

We create quality, understated, distraction-free environments for individuals to engage in their faith through genuine worship.

### **Preaching**

We believe preaching should be biblical, engaging, and helpful.

### **Communications**

We combine the power of imagery and words to give people opportunities to take next steps.

### **Missions**

We support trustworthy leaders of organizations locally and globally who start churches, help people follow Jesus, and meet needs.

### **Community Engagement**

We build relationships with our local community by being available and helpful.

### **Facilities**

We use our facility for ministry first and to be useful to the community.

### **World Events**

We speak about events when we can help people follow Jesus through a specific call to action.

### **Volunteers**

We staff in order to give people opportunities to serve in the church.

### **Budgets**

We lead people to generosity so we can fund local ministry, take advantage of the right opportunities, and create more Local Churches.
